

Hardware and Software

Kryterion delivers all tests through the Microsoft Internet Explorer and Google Chrome web browsers. Minimum hardware and software requirements include:

Processor

- 1 GHz or higher required

RAM

- 1 GB or greater required

Operating System:

- Windows 7
- Windows 8 (desktop mode only)
- Windows 10
- Will **NOT** work on Mac OS or mobile devices (iPad, phone, etc.)

Video

- A minimum of 256 colors with video display set to 1024x768 resolution

Monitor

- Minimum of 15" CRT or flat screen

Laptops must be connected to an outlet power source and not powered by battery alone.

Internet Access

- DSL, T1, or cable

Installed Applications

- Internet Explorer 9.0 or higher or Google Chrome

Installation of Adobe Acrobat Reader

- <http://get.adobe.com/reader>

Installation of Java Runtime Environment (JRE)

- <http://java.sun.com/javase/downloads/index.jsp#jre>
- Windows x64
- Do **NOT** download the "Offline" version

Installation of Adobe Flash Player

- <http://get.adobe.com/flashplayer/>

All software applications except Webassessor must be CLOSED prior to the launch of a Kryterion exam. Such applications include screen-capture programs, such as SnagIt. Be sure these types of applications are disabled or inactivated on workstations that will host Kryterion exams.
