Prescription Drug Monitoring Programs (PDMP): A National Viewpoint

Prescription drug abuse is a patient safety issue and a public health crisis. Unintentional overdose deaths have been classified as epidemic by the Centers for Disease Control. Join us at the 2014 Educational Summit, Improving the Infrastructure for Continuity of Care, for the PDMP: A National Viewpoint session. Get the latest information on drug diversion methods from a law enforcement perspective, legislative updates, and learn about a national strategy that can put a stop to prescription drug abuse by putting powerful information in the hands of doctors at the point of care.

Speakers:

- Gretchen M. Morris, diversion detective with Indiana State Police, National Association of Drug Diversion Investigators of Indiana, chapter president
- Joel White, president of Horizon Government Affairs, nationally recognized health policy expert

After attending, you will be able to:

- Define the scope of the problem of prescription drug abuse;
- Identify the role of the PDMP in combating prescription drug abuse and diversion;
- List commonly diverted drugs;
- Describe barriers to optimizing diversion; and
- Identify and describe solutions to the barriers and the benefits of those solutions.

Join us November 11, 2014 in Indianapolis, IN for this one-day intensive educational event featuring 7.5 Continuing Pharmacy Education (CPE) units for pharmacists and pharmacy technicians.
