

NCPDP 2019 Educational Summit

“Continuity of Care: What’s Working, What’s Missing, What’s Next”

This full day Educational Summit will take a 360 degree look at the patient experience and continuity of care – from the physician’s office to the pharmacy and providing care for patients with complex or chronic medical conditions.

Our program will take you on the journey of one patient with a behind-the-scenes look at the standards at work that support providers’ real-time access to clinical and administrative data.

We will also explore the areas where standards are needed to enhance continuity of care and what’s needed to keep pace with innovations that can paint a brighter future for the healthcare of tomorrow.

Wi-Fi Access for this event sponsored by IQVIA

Tuesday, November 5, 2019
