How To: Filter

Filter the list by clicking on the arrow next to each column heading.

How To: Search

Searching is a two-part process.

1

Type a keyword to reveal the document code of every document with that keyword. In this example, we've used the keyword "drugs"

2

Next, type a document code to reveal all the information. In this example, we've taken the first code returned in our search: 0601

The screenshot shows the RxReconn Quick Reference Guide Excel spreadsheet. The search bar at the top contains the keyword "drugs". The spreadsheet displays a table with columns: Document Code, Primary Topic, Type, Format, Topic/Report Name, and Descriptor. The search results are filtered to show document codes starting with "0601". The first result is highlighted, showing the document code "0601" and the topic "Health Insurance".

Deciphering Document Codes (Internal Use Only?)

Document Codes are 4-digit numbers determined by three factors:

Document #
This is a 2-digit number from 01-99

Report Type
0 – All Legislation
1 – Enacted Legislation
2 – All Regulation
3 – Enacted Regulation

Format
1 – Excel
2 – Map It
3 – Word
4 – HTML

Example Document Code:

01 2 1

This means that document code 0121 is document #01, is “All regulation” (#2), and is an Excel file (#1).

How To Access Full Document

After locating your document title and number in the quick reference guide, navigate to the “Quick Links” tab within the RxReconn Database.

Search for the document you are interested in by entering the document code.

Once you have located your file, double click the title to access the full document.

The screenshot displays the RxReconn database interface. At the top right is the RxReconn logo, a globe icon, and the text "RxReconn® a Product of NCPDP®". Below the logo are two tabs: "Welcome" and "Quick Links". The "Quick Links" tab is active, showing a table with columns "Type", "Name", and "Description". A "RxReconn Guide" button is located in the top right of the table area. The table lists several "LegisTrack" entries under the heading "Shared Profile Links - These links run shared profiles.":
